GRAPH PROJECT

To complete this project you will need newspapers or magazines, scissors, and glue.

Complete the steps below:

1. **Collect** the following from newspapers / magazines / a computer (original or photo copy):
   - one circle/pie graph (p 32)
   - one bar graph (p 33)
   - one line graph (p 34)

2. **Read and study** the information represented on each graph.

3. **Label** the graph type (bar, line, or circle) at the top of each page.

4. **Cut and paste** each graph on one sheet of paper (see below for example).

5. **Summary Sentence** - With each graph include a summary sentence to explain the information represented. In other words, answer the question - “What is the graph telling me?”

Graph Type: _______________

Summary Sentence _______________
